

Product Data

TechCorro™[EQ] Cutters and Stands

Details

Horizontal and vertical cutting units utilising patented cutting technology.
A full range of stands to take rolls of over 2000mm, 900mm in diameter and 250Kgs in weight.

Cutting technology

The patented cutting unit guarantees perfect cutting of soft and hard materials. The fixed and the round knives cut the material in both directions saving time.

Uses

The mobile units allow excellent use of existing space and remove the need to have cutting stands at all possible packing areas.

Remove the need to use hand knives so that Health & Safety is improved.

Measuring counters can be included on some units to assist with more accurate sheeting.

Supply formats

- Single horizontal with or without worktable and single cutter.
- Double horizontal with or without worktable; with one or two cutters.
- Unwind stand.
- Vertical with cutter; 500mm diameter roll; up to 250Kg.
- Vertical with cutter; 900mm diameter roll; up to 250Kg.
- Different widths available.

Frame construction is robust with impact-proof powder coating.

Vertical cutters have built in tumble/turn-over roll change system .

Other equipment & corrosion preventive packaging products

Packaging benches with a complete range of ancillaries complement these cutting stands
In addition to the above Technology Packaging provide VCI in films, including stretch films and shrink films, boards, PE coated materials, chips, plastic, powders& papers.

Corrosion preventive packaging from Technology Packaging

Technology Packaging provide a full range of best-fit products aimed at making sure our customers goods arrive in pristine condition at the lowest cost. Please see final page for details of our product ranges.

Skilled technicians are constantly reviewing & developing new products that are often customer led.
