

Corrosion Prevention for Manufacturing Industries

Introduction

Technology Packaging develops, manufactures and converts a growing range of products to provide valuable manufactured goods with **designed** levels of protection against corrosion, mechanical and other damage.

We make certain that products have the most appropriate corrosion preventive system available as our **complete** product range allows us to be uniquely objective.

Systems providing protection

Available products and systems include: -

- Volatile Corrosion Inhibitors (VCI) – papers, films, plastics, foams, powders, laminates., boards, emitters.....
- Barrier Foil Laminates and Barrier Films
- Desiccants and other adsorbing materials
- Liquid Corrosion Inhibitors (LCI) - oil and water-based, with and without VCI

How we work

We can simply provide our prices for our equivalent to existing products. However, there is a probability that we add benefit when we analyse existing packaging/corrosion prevention and introduce an improved system or product(s) that will provide cost and other advantages.

- Discussions and/or visits are arranged.
- A report is provided that normally contains more than one method together with costings.
- Once studied by the appropriate personnel, a further meeting is arranged at which questions are answered, a method is agreed and, if necessary, a trial is organised.
- Orders are placed for the **designed** system.
- Technology Packaging monitor performance and are available to advise on any issues that arise. Regular meetings are organised to discuss any process change that could affect the adopted system(s).

What to do now

Our web site provides considerable details on our products as well as information on corrosion and other issues that affect products in storage and transit or simply contact us by telephone, e-mail or through the web-site.

Distributors throughout Europe

TechCorro™ [BF] barrier foils	Bags Rolls Sheets	All these products are supplied with or without VCI
TechCorro™ [B] boards	Corrugated paper Cartons and boards Chips	All these products are supplied with or without VCI
TechCorro™ [D] desiccants	Various desiccant types In bags Bulk	
TechCorro™ [E] emitters	VCI Foams VCI Devices	
TechCorro™ [EQ] equipment	A comprehensive range of items including:- handling equipment, heat sealing tools packing benches, packing cases/containers and more.	
TechCorro™ [F] films	Polyethylene films Stretch films Shrink films Laminated film products Bubble films	All these products are supplied with or without VCI
TechCorro™ [FL] fluids	Oil based Water based VOC free and more...	All these products are supplied with or without VCI
TechCorro™ [P] papers	Flat papers Creped papers PE Coated papers Reinforced papers Laminated paper products	All these products are supplied with or without VCI
TechCorro™ [PL] plastics	Plastic items with or without VCI such as:- netting, corrugated sheets, wire and more...
