

TechCorro™[F] MMI Film stock rolls

Details

These TechCorro™ [F] MMI film rolls are designed to protect a range of metals from corrosion whilst in storage and/or transit.

Metals protected

Detailed information on protected metals and compatibility issues can be found in our 'Compatibility charts' that are available from our web site or our sales office.

Method of providing protection

VCI's emit small amounts of harmless active corrosion inhibitors. They are attracted to the charged surface of the metal. The flow of electrons in the metal and the flow of ions in the electrolyte surface are unable to operate and corrosion is halted. The length of protection depends on many factors and Technology Packaging staff are available to answer specific questions on corrosion protection or to provide detailed, objective proposals on suitable methods. This is true whether the problem relates to new projects or existing problematic transit and/or storage systems.

Roll details

Code	Width (mm)	Length(M)	mu	Appx. Kgs
1060750004	1000 sws	x 200	75	14.0
1061000033	1000 sws	x 200	100	18.6
1060750012	600/1200 cfs	x 200	75	16.8
1061000034	600/1200 cfs	x 200	100	22.3
1060750013	750/1500 cfs	x 150	75	15.7
1061000035	750/1500 cfs	x 150	100	20.9
1061000036	1000/2000 cfs	x 100	75	14.0
1061000014	1000/2000 cfs	x 100	100	18.6
1061000003	1200/2400 cfs	x 100	100	22.3

In addition to the above stocked items Technology Packaging will manufacture rolls to a large range of sizes, thickness, colours & prints to suit customer requirement.

Handling & Storage information

Ideally the material should be kept cool, dry and protected from direct sunlight. It is preferable to keep it in its original wrapping when possible. If kept in these conditions the material will be effective for a minimum of five years.

Other types of VCI products

In addition to a large range of different films, Technology Packaging provides VCI in papers, including boards, PE coated materials, chips, plastic, powders and a large number of special-purpose laminates. Skilled technicians are constantly reviewing and developing new products that are most often customer led. Contact us for further information

This information is based on existing knowledge and it is not binding. No legal claims can be derived from it.

Distributors throughout Europe

TechCorro™ [BF]
barrier foils

Bags
Rolls
Sheets

All these products are supplied with or without VCI

TechCorro™ [B]
boards

Corrugated paper
Cartons and boards
Chips

All these products are supplied with or without VCI

TechCorro™ [D]
desiccants

Various desiccant types
In bags
Bulk

TechCorro™ [E]
emitters

VCI Foams
VCI Devices

TechCorro™ [EQ]
equipment

A comprehensive range of items including:-
handling equipment, heat sealing tools
packing benches, packing cases/containers
and more.

TechCorro™ [F]
films

Polyethylene films
Stretch films
Shrink films
Laminated film products
Bubble films

All these products are supplied with or without VCI

TechCorro™ [FL]
fluids

Oil based
Water based
VOC free and more...

All these products are supplied with or without VCI

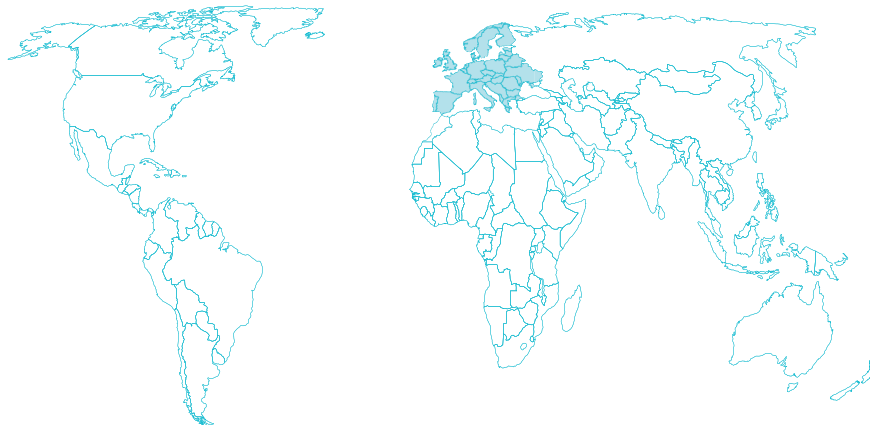

TechCorro™ [P]
papers

Flat papers
Creped papers
PE Coated papers
Reinforced papers
Laminated paper products

All these products are supplied with or without VCI

TechCorro™ [PL]
plastics

Plastic items with or without VCI such as:-
netting, corrugated sheets, wire and more...
