

TechCorro™ Dry Coat™ Rust Preventative

Details

TechCorro™ **Dry Coat™** Rust Preventative is a water-based liquid designed for use with all ferrous metals. It represents a significant advance in corrosion prevention technology. It is a user-friendly, environmentally-friendly replacement for solvent and oil-based corrosion inhibitors.

Method of application

TechCorro™ **Dry Coat™** can be simply sprayed onto parts (wetting the entire surface) then allowed to air dry.

TechCorro™ **Dry Coat™** can also be flow coated and used as a dip process. Please contact us for technical advice

At ambient conditions this, clear, protective coating will dry-to-touch within 30 minutes. Drying can be accelerated with warm air or fans if required.

Uses

TechCorro™ **Dry Coat™** is ideal for small parts in large quantities (nuts and bolts, fasteners, hardware) where individual wrapping is not an option. It also works well for short term storage of equipment, machinery, gears, pipes, flanges, cast iron, and ferrous metals, providing indoor protection for up to one year.

Benefits

TechCorro™ **Dry Coat™** unique formulation means that will not attract dirt or dust onto metal parts.

TechCorro™ **Dry Coat™** is:-

- Non-Toxic
- VOC Free
- Harmless to most elastomers or plastics
- Non-hazardous and safe to handle
- Easily washes off using mild detergents or common metal cleaning solutions

Technology Packaging provides several other Liquid Corrosion Inhibitors (LCIs). Please contact our Sales Office for details.

Other types of Corrosion Preventative products available

Technology Packaging provides VCI in many types of film, papers, including boards, PE coated materials, chips, plastic, powders and a large number of special-purpose laminates. Barrier Foil Laminates and Desiccants complement the range. Skilled technicians are constantly reviewing and developing new products that are most often customer led. Distributors throughout Europe

TechCorro™ [BF]
barrier foils

Bags
Rolls
Sheets

All these products are supplied with or without VCI

TechCorro™ [B]
boards

Corrugated paper
Cartons and boards
Chips

All these products are supplied with or without VCI

TechCorro™ [D]
desiccants

Various desiccant types
In bags
Bulk

TechCorro™ [E]
emitters

VCI Foams
VCI Devices

TechCorro™ [EQ]
equipment

A comprehensive range of items including:-
handling equipment, heat sealing tools
packing benches, packing cases/containers
and more.

TechCorro™ [F]
films

Polyethylene films
Stretch films
Shrink films
Laminated film products
Bubble films

All these products are supplied with or without VCI

TechCorro™ [FL]
fluids

Oil based
Water based
VOC free and more...

All these products are supplied with or without VCI

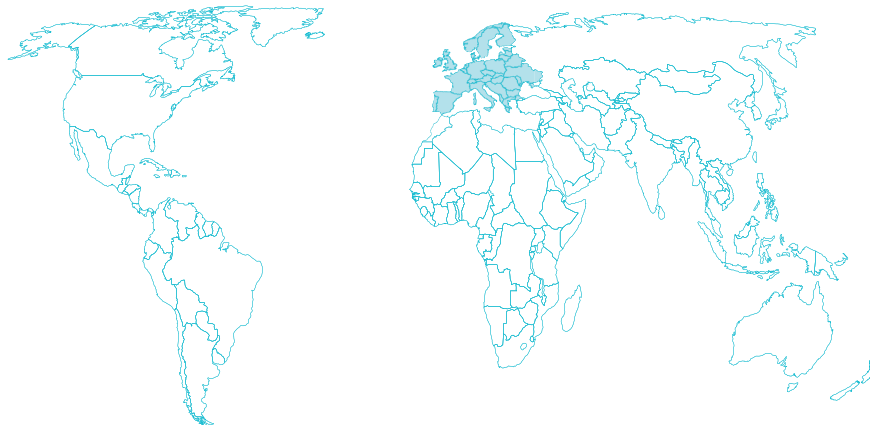

TechCorro™ [P]
papers

Flat papers
Creped papers
PE Coated papers
Reinforced papers
Laminated paper products

All these products are supplied with or without VCI

TechCorro™ [PL]
plastics

Plastic items with or without VCI such as:-
netting, corrugated sheets, wire and more...
