

TechCorro™ [P] Silver Shield for Protecting Silver

Detail

TechCorro™ [P] Silver Shield is a very special paper. It is infused with a particular chemical formula that provides excellent protection for noble metals, such as Silver, from tarnishing due to oxidation or sulphide vapour attack.

TechCorro™ Silver Shield Paper is a approximately 70gsm.

Method of providing protection

TechCorro™ [P] Silver Shield works by negating the harmful items that 'tarnish'. Long-lasting protection is provided. The length of protection depends on many factors and Technology Packaging staff are available to answer specific questions on corrosion protection or to provide detailed, objective proposals on suitable methods. This is true whether the problem relates to new projects or existing problematic transit and/or storage systems.

Uses

The product being protected should, ideally, be enclosed by TechCorro™ [P] Silver Shield. Jewellery, ornaments, electronic equipment and many other items can be given complete protection. Technology Packaging can supply information on how to use this product to give the required for the level of protection demanded.

Supply formats

TechCorro™ [P] Silver Shield can be supplied in sheets, wide and narrow rolls, hand-wrapping rolls and die-cut formats.

Product handling and storage

Ideally the material should be kept cool, dry and protected from direct sunlight. It is preferable to keep it in its original wrapping when possible. If kept in these conditions the materials will be effective for a minimum of three years.

Other types of corrosion preventive packaging products

In addition to Silver protection Technology Packaging provide many other items for protecting metals such as VCI in films, including stretch films and shrink films, boards, PE coated materials, chips, plastic, powders, papers and a large number of special-purpose laminates.

Skilled technicians are constantly reviewing and developing new products that are most often, customer led.

Distributors throughout Europe

TechCorro™ [BF]
barrier foils

Bags
Rolls
Sheets

All these products are supplied with or without VCI

TechCorro™ [B]
boards

Corrugated paper
Cartons and boards
Chips

All these products are supplied with or without VCI

TechCorro™ [D]
desiccants

Various desiccant types
In bags
Bulk

TechCorro™ [E]
emitters

VCI Foams
VCI Devices

TechCorro™ [EQ]
equipment

A comprehensive range of items including:-
handling equipment, heat sealing tools
packing benches, packing cases/containers
and more.

TechCorro™ [F]
films

Polyethylene films
Stretch films
Shrink films
Laminated film products
Bubble films

All these products are supplied with or without VCI

TechCorro™ [FL]
fluids

Oil based
Water based
VOC free and more...

All these products are supplied with or without VCI

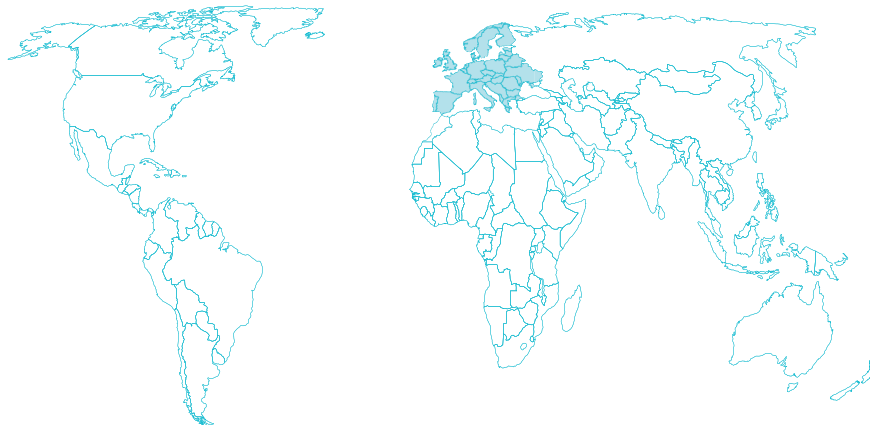

TechCorro™ [P]
papers

Flat papers
Creped papers
PE Coated papers
Reinforced papers
Laminated paper products

All these products are supplied with or without VCI

TechCorro™ [PL]
plastics

Plastic items with or without VCI such as:-
netting, corrugated sheets, wire and more...
