

TechCorro™[PL] Heavy Duty Plastic Mesh

Details

Manufactured from polyethylene in either square or diamond shape mesh, this robust mesh is available in a range of sizes and thicknesses and is tough enough to withstand heavy components even when incorporated in layers.

Oil and Chemical resistant, the mesh is re-useable making it very cost effective against traditional materials. Its open mesh structure lets oil and swarf drain through the mesh, resulting in cleaner and easier to handle components and also allows air to circulate avoiding condensation.

Additionally it allows TechCorro™[P] VCI papers, TechCorro™[F] VCI films, TechCorro™[FL] fluids and TechCorro™[E] VCI emitters to provide protective VCI to both sides of the mesh.

Uses

Replacing materials such as corrugated and waxed paper, TechCorro™ [PL] Heavy Duty Mesh creates a protective layer for use in metal, wooden or plastic stillages. Suitable for packaging machined and engineered items during transit and subsequent storage, it will also minimise loss through damage.

In addition to being used a layer divider it can be used to encapsulate components when using the mesh in sleeve format

Supply formats

Available in rolls or cut pieces which are subject to minimum production requirements, Separator Mesh and Sleeves can also be manufactured to the specific needs of customers.

The mesh is available in sheets and sleeves that can expand to fit a very wide range of components.

Corrosion preventive packaging products

Technology Packaging also provide corrosion preventive packaging in VCI in films, including stretch films and shrink films, boards, PE coated materials, chips, plastic, powder; papers and a large number of special-purpose laminates. In addition there is a full range of Barrier Foil Laminates, Liquid Corrosion Inhibitors and Desiccants. Contact us for further information.

Distributors throughout Europe

TechCorro™ [BF]
barrier foils

Bags
Rolls
Sheets

All these products
are supplied with or
without VCI

TechCorro™ [B]
boards

Corrugated paper
Cartons and boards
Chips

All these products
are supplied with or
without VCI

TechCorro™ [D]
desiccants

Various desiccant types
In bags
Bulk

TechCorro™ [E]
emitters

VCI Foams
VCI Devices

TechCorro™ [EQ]
equipment

A comprehensive range of items including:-
handling equipment, heat sealing tools
packing benches, packing cases/containers
and more.

TechCorro™ [F]
films

Polyethylene films
Stretch films
Shrink films
Laminated film products
Bubble films

All these products
are supplied with or
without VCI

TechCorro™ [FL]
fluids

Oil based
Water based
VOC free and more...

All these products
are supplied with or
without VCI

TechCorro™ [P]
papers

Flat papers
Creped papers
PE Coated papers
Reinforced papers
Laminated paper products

All these products
are supplied with or
without VCI

TechCorro™ [PL]
plastics

Plastic items with or without VCI such as:-
netting, corrugated sheets, wire and more...
