

## Solutions for the AEROSPACE Industry

Products designed for the **corrosion** protection of metal components during transit and storage before and after assembly

Technology Packaging produces and supplies a specialised range of packaging materials designed to prevent corrosion of metal products such as components and assembled items used in the Aerospace Industry. Materials that combine additional benefits, such as corrosion & mechanical protection, are also provided.

### Methods of providing corrosion protection

VCI, Barrier Foil Laminates, Desiccants & Liquid Corrosion Inhibitors are the main items that protect against corrosion. The type of protection required depends on many factors and Technology Packaging are able to be **objective** when proposing solutions. Technology Packaging staff are available to answer specific questions on corrosion protection or to provide detailed, objective proposals on suitable methods. This is true whether the problem relates to new projects or existing problematic transit and/or storage systems.

### Products

- **VCI films, papers, Boards, Emitters, Plastics:** an extremely wide range of Volatile Corrosion Inhibitor products allowing the 'best-fit' solution. Sometimes combining VCIs with Barrier Foil Laminates or
- **Barrier Foil Laminates:** extensive range of different laminates to meet every requirements. Supplied in wide or narrow rolls, bags of many different styles or other formats. Style sheets and samples available.
- **Desiccants:** Different desiccant types available to suit the application. These include Silica Gel, Activated Clay and Molecular sieve.
- **Liquid Corrosion Inhibitors:** Water displacing, Oil based, Water based, VCI, Gel, VOC free.

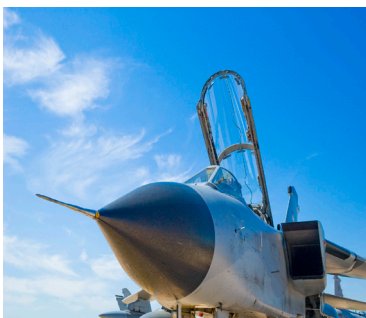

### How we work

We can simply provide our prices for our equivalent to existing products. However, there is a probability that we add benefit when we analyse packaging/corrosion prevention and introduce an improved system or product that will provide cost and other advantages.

Our technical products can be printed with your company name and/or logo to endorse your company's message or adhere to marketing requirements.

This information is based on existing knowledge and is not binding. No legal claims can be derived from it.

**Distributors throughout Europe**

<b>TechCorro™ [BF]</b> barrier foils	Bags Rolls Sheets	All these products are supplied with or without VCI
<b>TechCorro™ [B]</b> boards	Corrugated paper Cartons and boards Chips	All these products are supplied with or without VCI
<b>TechCorro™ [D]</b> desiccants	Various desiccant types In bags Bulk	
<b>TechCorro™ [E]</b> emitters	VCI Foams VCI Devices	
<b>TechCorro™ [EQ]</b> equipment	A comprehensive range of items including:- handling equipment, heat sealing tools packing benches, packing cases/containers and more.	
<b>TechCorro™ [F]</b> films	Polyethylene films Stretch films Shrink films Laminated film products Bubble films	All these products are supplied with or without VCI
<b>TechCorro™ [FL]</b> fluids	Oil based Water based VOC free and more...	All these products are supplied with or without VCI
<b>TechCorro™ [P]</b> papers	Flat papers Creped papers PE Coated papers Reinforced papers Laminated paper products	All these products are supplied with or without VCI
<b>TechCorro™ [PL]</b> plastics	Plastic items with or without VCI such as:- netting, corrugated sheets, wire and more...
